

LED DIGITAL WIRELESS POWERBANK

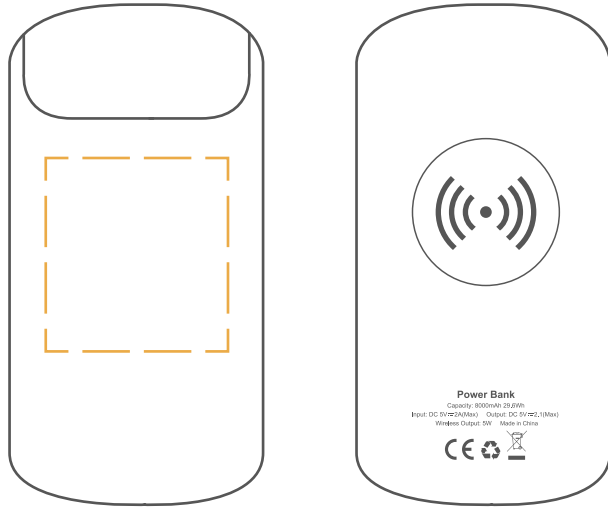

Our new LED powerbanks are the next step to making your brand glow! Coming with an impressive 8000mAh battery capacity- the LED powerbanks will light up when connected to power, bringing your brand to life. The powerbanks feature two USB ports capable of charging all of your devices when on the go, or in the office and at home. The LED Digital Wireless powerbank is capable of wireless charging and wired, with a digital display that displays the percentage of power left. With a sleek and compact design, the LED powerbanks will fit neatly into your bag or pocket for charging your devices on the move.
